Work Experience

Full Stack Web Developer | Infotour

May 2023 - Nov 2023

Developed the company's website from scratch, both backend development and frontend development. Maintenance of the code. I also developed the API Rest that the company uses for their sales.

Marketing and Sales Officer | Aulab España

April 2022 to May 2023

Engaged in direct B2B sales of full-stack web development bootcamps, addressing technical inquiries, and hosted live interactive webinars for prospective clients, answering questions about web development. Executed marketing initiatives tailored to the Spanish market, all while working remotely and maintaining seamless communication with the team.

Operations Manager | Southbourne School of English

Aug 2018 - Mar 2022

Utilized Scrum and Agile methodologies to optimize team productivity and project efficiency, ensuring seamless collaboration and timely delivery of high-quality outcomes. Additionally, led financial planning, budgeting, and variance analysis, while fostering client relationships and supervising 50+ employees in alignment with company policies.
